Funeral Directors

Services and Price List 2021

B. Hattersley Funeral Service

Introduction

This brochure gives details of our services from 2021.

It lists coffins, professional fees, removal, delivery and other charges usually associated with a funeral.

We have tried to list as many things to give an accurate price as far as is possible. Because each person and members of each family have individual requirements, amounts may vary. It is our policy to indicate how much a funeral will cost before the ceremony takes place.

Many of the coffins shown have several variations, and although we try to illustrate the ones most usually chosen, we can produce almost any practicable design or colour variation.

The prices and charges shown do not include disbursements. These fees: Cemetery, Crematorium, Doctors, Newspapers, Printers, Church, Clergy and other external charges are payable at the time of the funeral, but for your convenience, we are pleased to disburse these on your behalf and itemise them on our account, for payment with our fees.

Wherever VAT occurs in any of the charges, it is included but is not added because VAT is not charged on Funerals.

We believe our products and services are produced and carried out to the highest possible standards.

If you have any questions about any aspect of our service, please ask.
